

Sponsoring and sharing session at the 1st PAM Education AEC Showcase at Infrastructure University Kuala Lumpur

CSC Steel was invited to sponsor and be one of the speakers for the 1st PAM Education AEC Showcase held at Infrastructure University Kuala Lumpur on 14 and 15 March 2023.

The 1st PAM Education AEC Showcase is an excellent opportunity for architects and industry professionals to learn about the latest trends and advancements in the construction industry.

CSC Steel's participation in the event demonstrates their commitment to sharing their expertise and knowledge with future architects, ensuring they are equipped with the skills and information needed to make informed decisions when designing structures.

The topic of the presentation, "Steel It Right," aims to educate future architects on the importance of choosing the right steel for their projects. CSC Steel was able to provide valuable insights into the various types of steel and their applications, as well as the critical factors architects need to consider when choosing the right steel for their projects. CSC Steel's expertise and knowledge in steel manufacturing was able to provide attendees with valuable information they can apply to their future projects.
