The Ultimate Fusion of Style & Functionality

The warmth, distinct appeal and beauty of nature's wood finish with the durability and strength of steel.

Discover **realcolor® geo**:
The perfect pre-painted
galvanized steel with the
blend of natural beauty
and industrial strength.

Wood is one of the oldest building materials used by humankind. The lovely natural woodgrain patterns have been admired for centuries, from ancient times to modern architecture.

This is why **realcolor® geo** is the ultimate game-changer. With the balance of natural wood aesthetics and the durability and toughness of steel, **realcolor® geo** offers a visually stunning and long-lasting solution that can withstand the test of time.

Designing for the future: How **realcolor® geo** is leading the way in sustainable architecture

The emergence of **realcolor® geo** as an alternative building material provides a solution that supports sustainable living by preserving precious resources from our beloved mother earth.

Elevate your design game with the versatility of **realcolor® geo** & **realcolor® geomax**

Product Specification

		
Typical Usage	Interior ceiling and wall panels	Exterior wall claddings
Standard	MS 2383	MS 2383
Substrates	Galvanized Steel MS 2660	Galvanized Steel MS 2660
Pre-treatment	Anti-corrosion & activation coating	Anti-corrosion & activation coating
Primer Coat	Without	With nominal film thickness 5µm on top or weathering side
Finish Coat	High performance polyester paint system in nominal film thickness 20µm	High performance polyester paint system in nominal film thickness 30µm
Backing Coat	Nominal film thickness 5µm	Nominal film thickness 7µm
Gloss	Nominal 15% (60°)	Nominal 15% (60°)
Nominal Thickness	BMT 0.25 – 0.60mm	BMT 0.35 – 0.60mm
Nominal Width	914 – 1,219mm	914 – 1,219mm
Zinc Coating	Z080	Z180 min
Colour	A range of standard colours is available. Other specially required colours may be available on request.	

Why **realcolor® geo** is an Eco-friendly Choice for you?

Minimize waste with
low maintenance

Long-lasting with
multi-layer coating
protections

RoHs tested

Made from a high
proportion of
recycled materials

Eliminate the
need for wood

Completely recyclable
to reduce carbon
footprint
